## Clarence House

A new collection at Clarence House (800-803-2850) includes Saarinen, inspired by the work of the famed Finnish designer and architect. It comes in green, ecru and sable.

The solid-macassar ebony arms of the Ruhlmann-style Gonse chair, above, are hand-sculpted.

## A Tribute to Ruhlmann

Frank Pollaro's 20-year-old custom furniture business celebrates its move to a larger location with an ambitious project. Handcrafted with exceptional attention to detail, new pieces have evolved from the sketchbook of Émile-Jacques Ruhlmann. One of the key pieces in the collection is a stunning rosewood chiffonier adorned with a sterling silver medallion cast from a hand-carved mold (above left). A macassar ebony desk has an inset shagreen writing surface (above). Pollaro's Art Déco devotees include **Harry Schnaper**.
