

POLLARO

# Teak & Titanium

EXTERIOR COLLECTION

## Made without equal

Beautifully handmade using the most exceptional materials, our Teak & Titanium collection represents the pinnacle of exterior furniture.

Each piece is tailored to the exact requirements of our clients and is made to our exacting standards, creating a collection that is perfect in both form and function.

“The yacht furniture is spectacular.  
Everyone loved the pieces... all of them.  
I could not be happier.”

Larry Ellison  
*CEO & Founder, Oracle*

## The finest materials

We use only the finest sustainable materials, hand-selected for their purity, performance and beauty.

Each piece is handmade from a single board or consecutively sawn boards from a single tree, specially selected to ensure unrivalled harmony and rhythm. Combined with the unique strength and enduring quality of pure titanium.

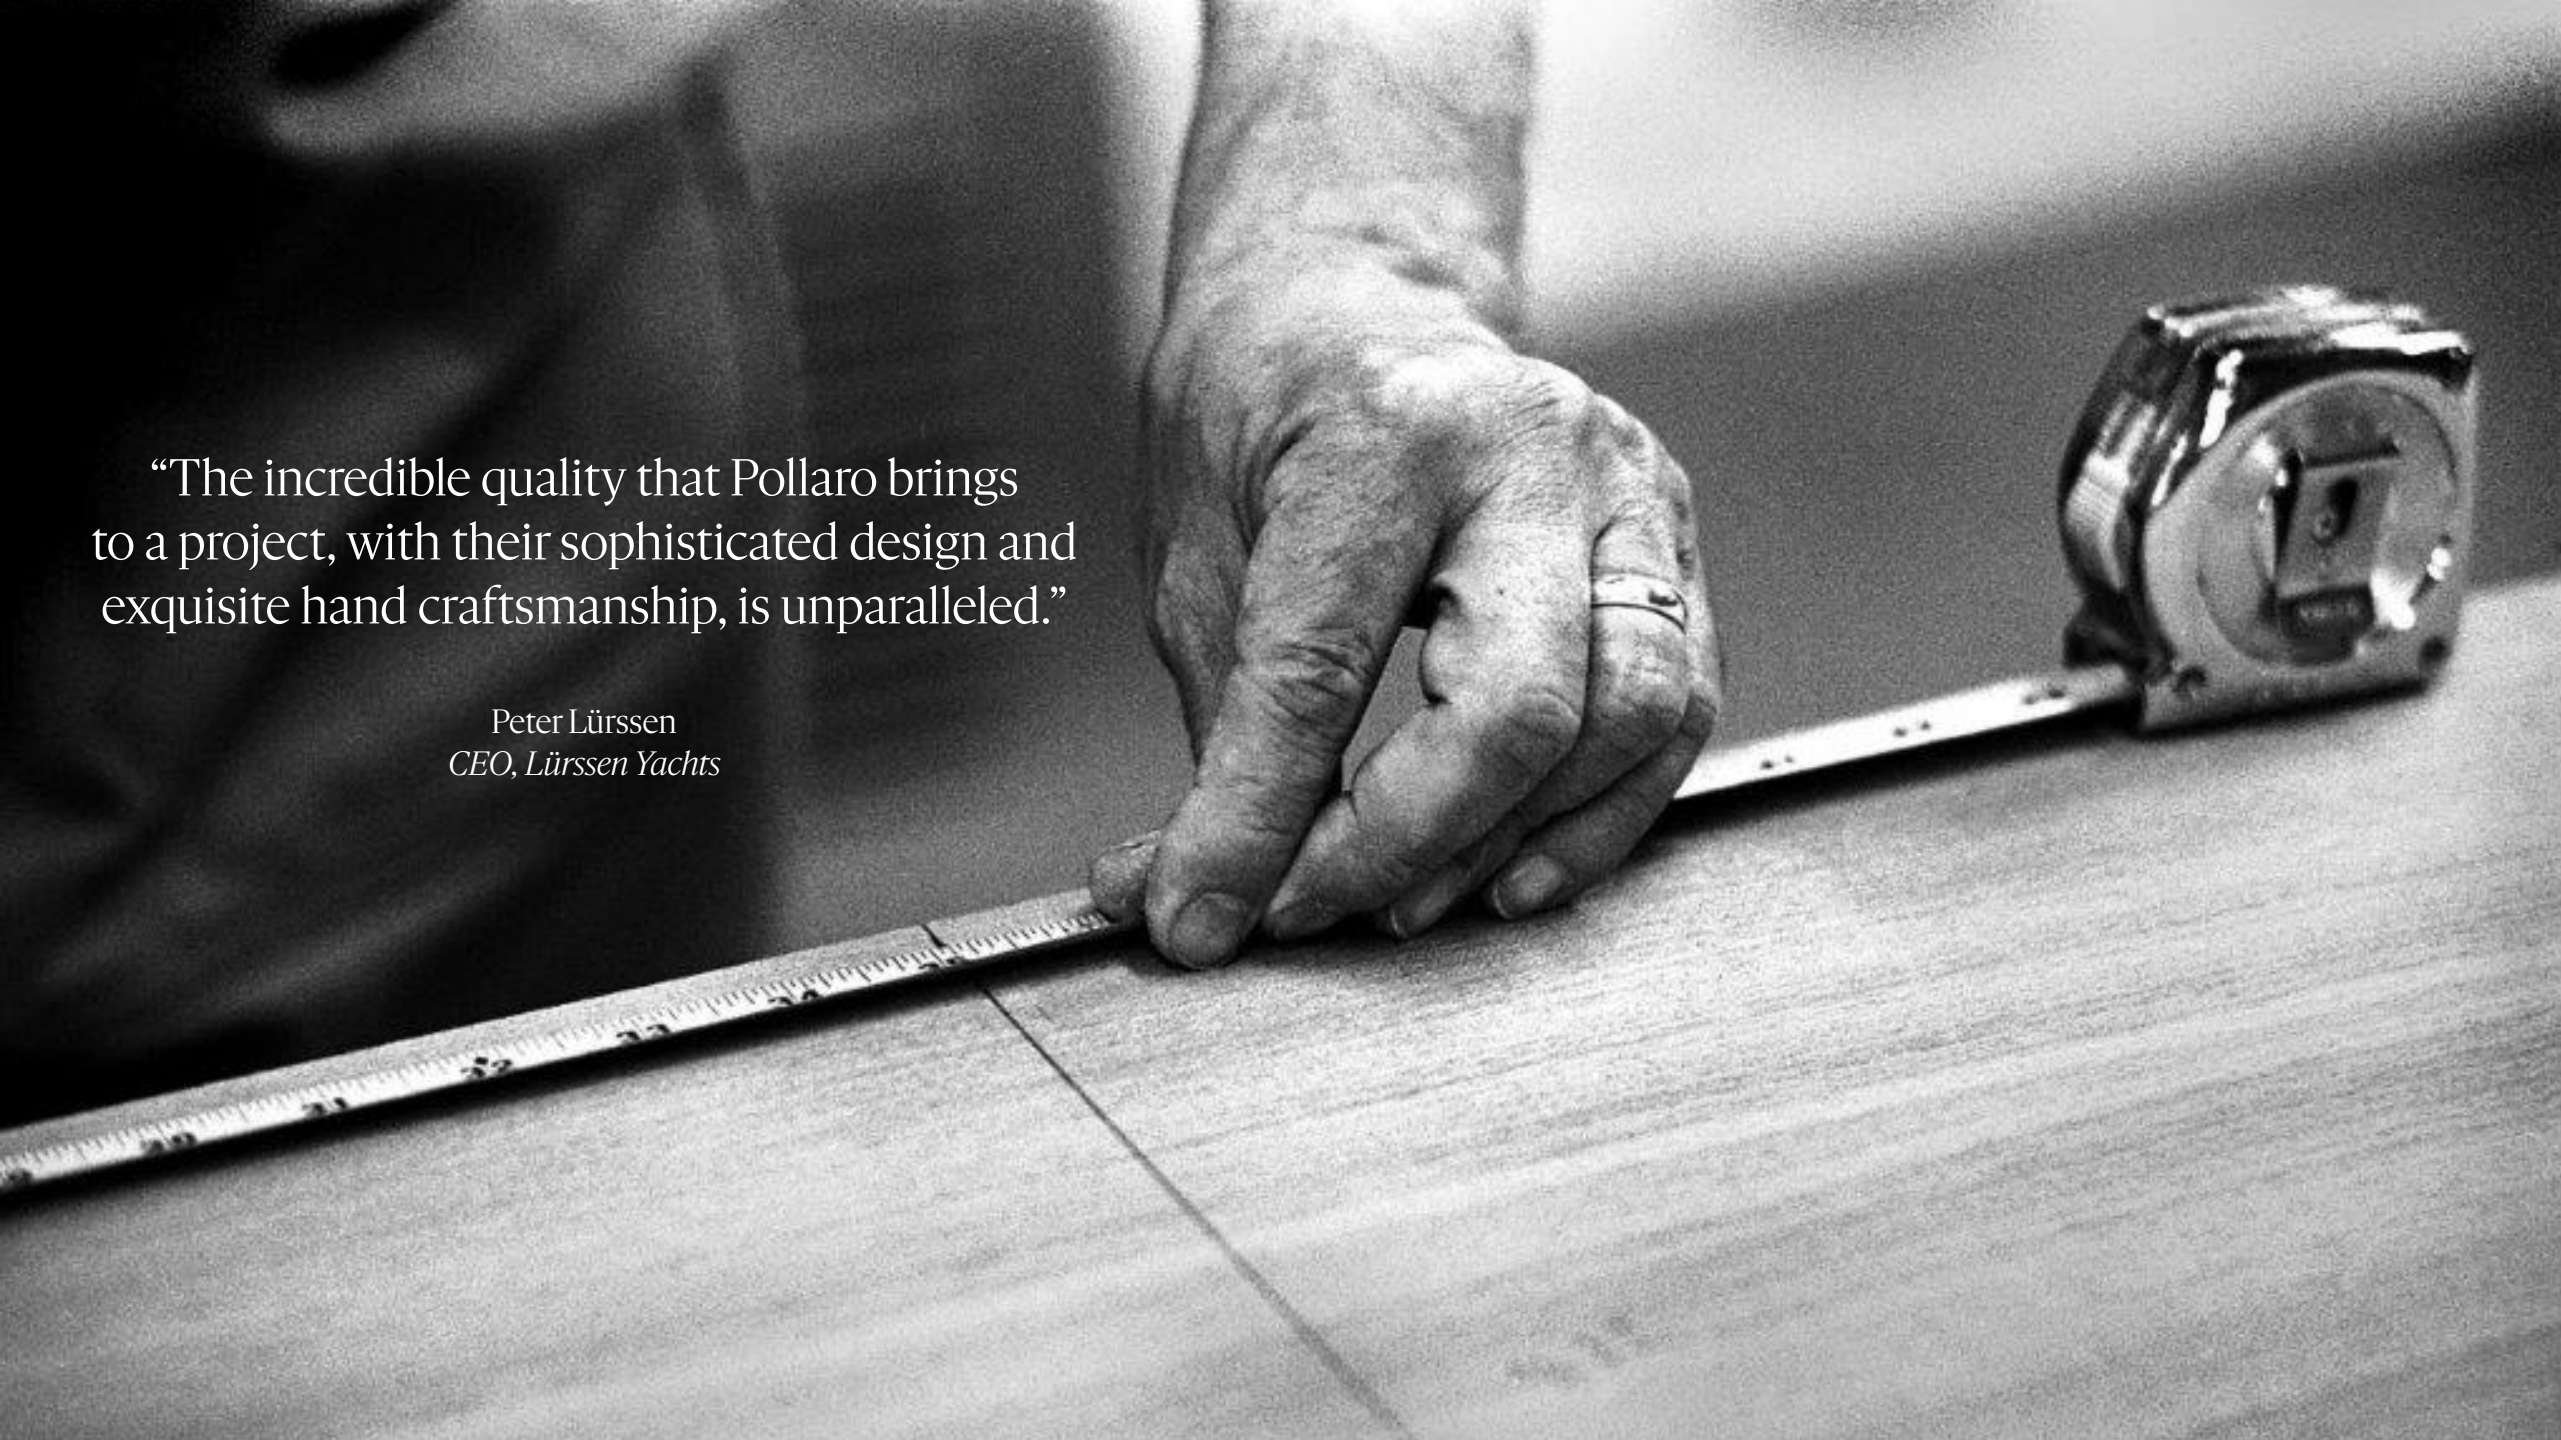

## Unrivalled craftsmanship

Every component of the Teak & Titanium collection is expertly handmade under one roof, in our own workshop, where we meticulously manage every aspect of craftsmanship, quality, and material selection – imbuing each piece with the fingerprint of the craftsman.

“The incredible quality that Pollaro brings to a project, with their sophisticated design and exquisite hand craftsmanship, is unparalleled.”

Peter Lürssen  
*CEO, Lürssen Yachts*

## Tailored exclusively to you

Each piece is ergonomically engineered for the ultimate comfort and can be custom tailored to the clients unique anthropometric dimensions.

We carefully consider every aspect from seat height and depth to cushion firmness and support. While tables can be height adjustable to create the perfect setting.

## Made for life

The collection has been designed to endure the harshest conditions, from the corrosion resistant titanium and naturally durable teak, to the weatherproof cushions, specially weighted for wind resistance, each piece is truly made for life.

A close-up, low-angle shot of the backrest of a modern wooden chair. The backrest features three horizontal wooden slats. The chair is supported by two silver-colored metal legs that are attached to the wooden frame with metal brackets. The background is a plain, light-colored surface.

**MATERIALS**

- Our teak is hand selected from the top 1% of all Burmese teak
- Pure titanium is totally corrosion resistant in salt water applications, it is 42% lighter than stainless steel, and it has the highest strength-to-density ratio of any metallic element
- All hardware is hand-machined from solid titanium billets
- Titanium hinge mechanisms with integrated lubricated bronze bearings
- Type 316 stainless steel seat webbing mounts and screws
- Replaceable nylon webbing, furnished with a second set of webbing
- Weatherproof foam cushions will not hold water and will not mildew
- Weighted exterior pillows for wind resistance
- Sanded to 800 grit and finished in 8 coats of hand-rubbed teak oil
- Ultra-comfort head and lumbar pillows with proprietary fill
- Client may supply their own upholstery fabrics

**MAINTENANCE**

- Specifically designed for crew friendly maintenance
- New teak oil is applied by hand as needed to refresh finish
- Easily replaceable heavy nylon seat webbing
- Replaceable glides on chair feet (Felt or Nylon), furnished with second set
- Fitted heavy-duty exterior weather covers available at extra charge

**ERGONOMICS**

- Seating is custom tailored for individual client anthropometric dimensions
- Designed for comfort with appropriate angles, seat height, seat depth, and arm height
- Seat cushions are supported by flexible nylon webbing for superior comfort
- Completely ergonomically engineered

---

**DESIGN**

- Timeless design complements any exterior decor
- Expandable design range including tables, chairs, sofas, bar, stools, cocktail tables, with customized capabilities
- Tables have optional height adjustment mechanisms
- Custom designed deck mounting hardware in Type 316 stainless steel
- Designed for performance to withstand the harshest conditions

---

**ORDERING**

- 10 to 12 weeks completion time from receipt of payment
- Worldwide shipping available
- Global 72-hour response time in the event of a problem

---

**CRAFTSMANSHIP**

- Completely hand-made with no use of computerized machinery
- Each piece made from a single teak board or sequential boards from one tree
- Hand-cut, integrated mortise and tenon joinery (no dowels)
- Completely waterproof adhesives employed
- Made in USA. All pieces manufactured in our own workshop
